SUMMARY

Motivated and adaptable undergraduate Software Engineering student with practical experience in web application development and a strong foundation in IT and software development principles. Quick learner with good communication skills, team collaboration experience, and a strong interest in building efficient, user-friendly, and secure systems. Seeking entry-level or internship opportunities across IT, software, and technology-related roles to gain industry exposure and contribute positively to organizational goals.

CORE SKILLS

- Programming Fundamentals (C#, PHP, JavaScript, basic Java)
- Web Development (HTML, CSS, JavaScript, React.js)
- Database Basics (MySQL, SQL Server)
- Software Development Life Cycle (SDLC)
- Version Control (Git, GitHub)
- UI/UX Basics (Figma, Responsive Design)
- Problem Solving & Logical Thinking
- Teamwork, Communication & Time Management
- Basic Knowledge of IT Security & GDPR Concepts

TECHNICAL TOOLS

- Visual Studio Code, Visual Studio
- Git & GitHub
- MySQL, phpMyAdmin
- Figma
- Microsoft Office (Word, Excel, PowerPoint)
- Wordpress

ACADEMIC & PRACTICAL PROJECTS

Item Registry for POS System

- Built a POS-focused item registry application with full CRUD operations.
- Implemented state management and SKU-based item search.
- Technologies used: Flutter, Dart.

FoodHub Management System

- Developed a desktop-based food management system using the .NET framework.
- Implemented secure login, data handling, and database connectivity.
- Utilized SQL Server for efficient data storage and retrieval.
- Technologies used: .NET, C#, SQL Server.

UrbanThreads - E-Commerce Web Application

- Designed and developed a full-stack e-commerce web application.
- Features include product browsing, user authentication, shopping cart, and simulated checkout.
- Implemented inventory handling with a responsive React-based UI and PHP-MySQL backend.
- Technologies used: React.js, PHP, MySQL, JavaScript.

NizMah POS System

- Developed a modern Point of Sale (POS) web application for a real-world retail scenario.
- Implemented sales processing, product and customer management, and receipt generation.
- Focused on responsive design and scalable system architecture.
- Technologies used: React.js, JavaScript.

EDUCATION

HND in Software Engineering (Level 6)	2024 -2026
ESOFT Metro Campus	
Diploma in Information Technology (Level 3)	2024
ESOFT Metro Campus	

LANGUAGES

- English -Fluent
- Tamil -Fluent
- Sinhala -Fluent

PERSONAL STRENGTHS

- Willingness to learn and adapt quickly
- Positive attitude and strong work ethic
- Good interpersonal and communication skills
- Ability to work independently or as part of a team

CAREER OBJECTIVE

To secure an entry-level or internship position in a reputed organization where I can apply my technical knowledge, improve professional skills, and gain real-world industry experience while contributing to the success of the organization.
